

EARN WHILE YOU LEARN WITH JOINT APPRENTICESHIP & TRAINING CENTER (JATC) PROGRAMS

There are many union apprenticeship and training opportunities in Montana. These apprenticeship programs are a partnership between unions and employers to ensure high quality work and a path to a good quality life. Workers receive good paying union jobs and become part of the highest skilled, safest, and most productive workforce available, while employers have access to a pool of the best trained workers in Montana.

The advantages of union JATC programs are clear. Union JATCs are privately funded and boast higher graduation rates than their non-union competitors. JATC graduates earn competitive wages and benefits, including health insurance and pensions. **JATC graduates don't walk away with just a job – they build a career that can sustain a family.**

**CONTACT A UNION JATC TODAY AND
INQUIRE ABOUT TRAINING OPPORTUNITIES.**
